caps FLEX

EMBOCAPS® FLEX

The world's first and only MULTI SIZE CAPSULE
It is 2 CAPSULES IN 1.

Unique MULTI-LOCKING SYSTEM

With two independent locking systems, the end capsule user can adjust the fill volume according to their immediate needs.

Example. If the fill material density decreases during production, the capsule can be flexed from #00 to #00E with a simple machine adjustment

Specifications for Size 00 Flex and Size 0 Flex

		Cap Length (mm)	Body Length (mm)	Prelock Length (mm)	Final Locked Length (mm)	Shell Weight (mg)		Volume (ml)
